

Education Transformation Initiative

TECHSERV POWERS EDUCATIONAL OPPORTUNITIES
THROUGH INNOVATIVE, LEARNER-CENTERED ECOSYSTEMS

PROBLEM

Communities across Indiana face persistent barriers to delivering a sustainable, high-quality education:

- Uneven access to early childhood & expanded learning programs
- Learning loss as a result of limited before/after-school & summer learning opportunities
- Schools & centers lacking sufficient capacity, staffing, or technology to innovate
- Lack of support implementing vital nutrition programs

Without coordinated systems, learners often faced insufficient enrichment, one-size-fits-all instruction, and missed pathways to higher education & workforce onboarding.

SOLUTION

TechServ served as the **catalyst & enabling agent** that turned fragmented education systems into **Integrated, Community-Centered Learning Ecosystems**.

Strategic Governance, System Design & Stakeholder Collaboration

- Aligns early learning centers, schools, community orgs, & workforce partners with shared structures driving sustainability
- Supports leaders in school- & community-wide transformation

Innovative Technology Implementation

- Integrates blended & technology-enabled teaching models using AI-powered personalized learning platforms
- Activates data dashboards to inform decision-making

Implementation & Workforce Development

- Provides professional development, coaching, & leadership training
- Provides staff placement, program training, & full operations execution & transitions to evaluative support, compliance & continuous quality improvement

RESULTS

Expanded Instruction Time

Schoolwide enhancements like increased instructional quality & capacity for innovation

Reduced Learning Gaps

Enhanced access to learning outside of school hours & reduced learning loss

Essential Skills Pathways

Greater participation in real-world skill development & increased essential workforce employment

Food Access Integration

Expanded implementation of student nutrition programs

IMPACT SUMMARY

TechServ drives education transformation by strengthening learning ecosystems from early childhood through adulthood. By integrating innovative instruction, AI-powered personalization, expanded learning, & workforce pathways, we ensure learning extends beyond traditional classroom boundaries. These initiatives demonstrate how coordinated governance, technology, and community-driven implementation can close system-wide educational gaps, deliver measurable improvements in learner outcomes, & achieve long-term program sustainability.

ACTION

Digital Learning Labs

- Deployed AI-powered instructional hubs, utilizing instructional pathways responsive to & informed by individual learner needs
- Strengthened student learning both during & outside of school hours

Expanded Learning & Enrichment Programs

- Deliver extracurricular offerings in arts, wellness, STEM, culture, & recreation, implemented at schools & community centers to complement learning & offer a safe environment
- Expand access to nutrition education & meal service programs for students

Career & Technical Education

- Leveraged Workplace Specialists to deliver hands-on learning in emerging industries
- Provide career-aligned skills & opportunities for certifications
- Activate postsecondary pathways in high-demand fields & skilled trades, leading to sustainable employment & increased long-term economic mobility

SUSTAINABILITY

Capacity Building

Establishes local leadership & workforce capacity through training, coaching, & operational support, which ensures continuity beyond initial implementation.

Data & Evaluation Tools

Real-time dashboards & standardized reporting enable accountability, transparency & continuous improvement, as well as inform further instruction & operations.

Governance & Funding Alignment

Shared governance frameworks & diversified funding strategies instill collaboration & sustain impact.

Replicable Models

Each program is designed to scale across urban, suburban, & rural communities, adapting to local needs while maintaining consistent quality.

IMPACT > EMPOWERING LEARNERS, BUILDING OPPORTUNITIES

TechServ's work in transforming education showcases how integrated systems, innovative instruction, & community collaboration can reshape the way learning happens.

By prioritizing sustainability & aligning key partners, TechServ ensures learners at every stage of life have access to the education, enrichment, & career pathways needed to thrive.
